More Placemaking Projects

Neighborhood Green Walkway detail

(see centerfold of booklet for mapped location)

A walking trail tying together the many green spaces, cultural assets, historic buildings and other points of interest creating a pleasant family excursion opportunity, an exercise routine or an educational walk for a class of school children. Once fully implemented, it could serve as a touchstone for pride of place for Waterfront South and a destination activity for visitors to the neighborhood.

Elements to include:

- Interpretive panels at key community assets
- Wayfinding signage throughout
- * Storm drain stenciling at all inlets
- Maritime sculptures and public art Interspersed at green spaces
- * Periodic exercise stations
- Brick archways at gateways—
 Jackson & Chelton at Broadway,
 Jackson St to Pier & both Park
 entrances

Neighborhood Engagement Projects

- Block Captains & Teams for green space maintenance.
- ♦ Stormwater Inlet litter patrol
- Rain Barrel decorating workshops
- Rock painting parties to place throughout neighborhood

The Rowan Team would like to extend a HUGE

Thank You to our community participants, partners and CCMUA!

Questions, Comments, Feedback? We'd love your thoughts! Meenar@rowan.edu or mwren94@students.rowan.edu Or call 856.209.2483
